

AMENDMENTS

Amendments to the Specification:

Please replace paragraph 30 with the following rewritten paragraph:

Figure 6 depicts another embodiment of the invention for implementing the flowchart of Figure 1. Figure 6 depicts a notebook computer system having a notebook computer base 610, hinges 612 and 614, and display 640. The notebook computer base 610 is coupled to hinge 612 and hinge 614. The hinges 612 and 614 are coupled to display 640. ~~Evaporator~~ One or more evaporators 210, pump 220, remote heat exchanger 230, and fan 235 may be components of notebook computer base 610. The fan 235 may be enabled if cooling through natural convection is insufficient. A keyboard may be coupled to the top of the notebook computer base 610. Similar to the computer system of Figure 3, the working fluid of the cooling loop may be transmitted from the notebook computer base 610 to the display 640 via tubing or hoses inside the hinges 612 and 614.
